DETAILED ACTION

Election/Restrictions

Applicant's election of claim 1 in the reply filed on 12/1/2004 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

This application is in condition for allowance except for the presence of claims 2-8 to an invention non-elected without traverse. Accordingly, claims 2-8 have been cancelled. Further, authorization for this examiner's amendment was given in a telephone interview with John Smith on 01/14/2005.

Drawings

Figure 1 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid

abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Allowable Subject Matter

Claim 1 is allowed.

The following is an examiner's statement of reasons for allowance:

The reference (s) of record do not teach or suggest, either singularly or in combination at least the limitation of "a third semiconductor layer of a second conductivity type provided on said second semiconductor layer, said third semiconductor layer having a shape such that a part in the surface of said second semiconductor layer is exposed; a surface electrode provided on said third semiconductor layer; an active layer, for reducing the work function of said second semiconductor layer, provided on the exposed part in the surface of said second semiconductor layer; and backside electrode provided on the second surface of said semiconductor substrate, wherein a minimum interval $2L$ between parts of said third semiconductor layer, facing each other while sandwich the exposed part in the surface of the second semiconductor layer, is $0.2\text{ }\mu\text{m}$ or more but $2\text{ }\mu\text{m}$ or less " for claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Joseph Nguyen whose telephone number is (571) 272-1734. The examiner can normally be reached on Monday-Friday, 7:30 am- 4:30 pm. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Tom Thomas can be reached on (571) 272-1664.
